PLANT FRUIT FOR VICTORY!

We are making it possible in this, our Anniversary Low Priced Sale, for you to co-operate with our Government's request to Plant For Victory. On certain products, tin cans will not be available for factory canning. Therefore every one should try to provide their own vegetables for this Fall also fruit for this Fall and the next few years.

It will be up to the United States to supply the foreign countries with fruit for several years after the war.

Avoid paying high prices now and later by planting fruit trees this Spring. Beautify your home grounds while this material is available. Who knows what restrictions may be enforced next year.
